Dear Sirs:

I would like to register my objection to the Proposed Final Judgement (PFJ) in the Microsoft Antitrust case.

Specifically, I object to the provision in definition U, which does not include ALL Microsoft OS products as part of the definition for Windows Operating System Product. I feel this gives Microsoft an unfair advantage in future technologies which could replace existing ones.

I also object to the PFJ's proposals to eliminate entry barriers for Independent Software Vendors. There should be no restrictions on the use of disclosed data, which should also be released at least 6 months prior to any formal release by Microsoft.

Thank you for your time.

Sincerely,
